

RD250B/350B

FILTER ELEMENT INTERCHANGEABILITY

Filter elements for some RD250B/350B's are not interchangeable with the 250A/350A elements unless the following carburetion changes are made. Changes are necessary because of the additional air inlet silencing design of the 250B/350B element (P/N 360-14451-90-00).

The external design of both filters appear the same. Internal baffles identify the RD250B/350B filter element (P/N 360-14451-90-00).

RD350A/350B

IF FILTER ELEMENT IS	MAIN JET SHOULD BE	AIR SCREW SHOULD BE	REMARKS
278-14451-00-00	No. 140 137-14143-28-00	1 1/4 turns out	Std. element for RD350A & RD350B E/N 300101 ~ 308120
360-14451-90-00	No. 105 137-14143-21-00	1 1/4 turns out	Std. element for RD350B E/N 308121 ~

AFFECTED MACHINES

The following RD250B/350B's were equipped with, and the carburetors set for, the corresponding filter element:

MODEL	ENGINE NUMBER	FILTER PART NUMBER
RD250B	300101 ~ 304782	278-14451-00-00
RD250B	304783 ~	360-14451-90-00
RD350B	300101 ~ 308120	278-14451-00-00
RD350B	308121 ~	360-14451-90-00
